It is a unit by which the course work is measured. It determines the number of hours of instructions required per week. One credit is equivalent to one hour of teaching (lecture or tutorial) or two hours of practical work/field work per week. For example, a subject with 6-2-6(L-T-P) means it has 3 Lectures, 1 Tutorial and 6 Practical in a week. This subject will have ten credits (6x1+2x½+6x½=10). If a student is declared passing a subject, then he/she gets the credits associated with that subject. Depending on the marks scored in a subject, student is given a Grade. Each Grade has got certain grade points as follows:

For Theory / Practical where minimum marks is passing is 40 out of 100

<table>
<thead>
<tr>
<th>Letter Grade</th>

A student obtaining Grade F shall be considered failed and will be required to reappear for the examination.

Computation of SGPA and CGPA

Following is the procedure to compute the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA):

i. The SGPA is the ratio of sum of the number of product of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits of all the courses undergone by a student, i.e.

\[ \text{SGPA(Si)} = \frac{\sum (Ci \times Gi)}{\sum Ci} \]

Where \(Ci\) is the number of credits of the \(i\)th course and \(Gi\) is the grade point scored by the student in the \(i\)th course.

i) **Distribution Of Theory Paper Marks**

(A) Theory Paper Max. Marks : 80

(B) Sessional Marks For Theory Paper : 20

(Internal Examination)

(C) Total Passing Marks Out Of 100 : (A + B) 40

**Note:** The student must appear in the internal examination. Therefore where a student has remained absent in an internal examination he will not be eligible to be declared passed even if he/she secures 40 marks in the theory examination.

**Work load for Theory and practical per week shall be as given below**

1. Work load per week for each Theory paper will be 4 hours.
2. Work load per week for each Practical will be 8 hours.
3. Work load per week for each Seminar/Dissertation will be 1 hours.

ii) The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a program, i.e.

\[
CGPA = \frac{\sum (C_i S_i)}{\sum C_i}
\]

Where \( S_i \) is the SGPA of the \( i \)th semester and \( C_i \) is the total number of credits in that semester.

<td>12x7.83=93.9</td>
<td>12x5.69=68.2</td>
<td>12x6.31=75.7</td>
</tr>
</tbody>
</table>

Thus,

\[
CGPA = \frac{78+93.9+68.2+75.7}{48} = 6.57
\]

The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts. Ex. 7.765=7.08 or 6.5168=6.52 etc.

**Transcript (Format):** Based on the above recommendations on Letter grades, grade points and SGPA and CCPA, the HELs may issue the transcript for each semester and a consolidated transcript indicating the performance in all semesters.
