Definitions of Key Words:-

Choice Based Credit System (CBCS): The CBCS provides choice for students to select from the prescribed courses (core, elective or minor or soft skill courses).

Course: Usually refers to, as ‘papers’ is a component of a programme. All courses need not carry the same weight. The courses should define learning objectives and learning outcomes. A course may be designed to comprise lectures/ tutorials/laboratory work/ field work/ outreach activities/ project work/ vocational training/viva/ seminars/ term papers/assignments/ presentations/ self-study etc. or a combination of some of these.

Credit Based Semester System (CBSS): Under the CBSS, the requirement for awarding a degree or diploma or certificate is prescribed in terms of number of credits to be completed by the students.

Credit Point: It is the product of grade point and number of credits for a course.

Credit: A unit by which the course work is measured. It determines the number of hours of instructions required per week. One credit is equivalent to one hour of teaching (Theory) or two hours of practical work/field work per week
Cumulative Grade Point Average (CGPA): It is a measure of overall cumulative performance of a student over all semesters. The CGPA is the ratio of total credit points secured by a student in various courses in all semesters and the sum of the total credits of all courses in all the semesters. It is expressed up to two decimal points.

Grade Point: It is a numerical weight allotted to each letter grade on a 10-point scale.

Letter Grade: It is an index of the performance of students in a said course. Grades are denoted by letters O, A+, A, B+, B, C, P and F.

Programme: An educational programme leading to an award of a Degree, diploma or certificate.

Semester Grade Point Average (SGPA): It is a measure of performance of work done in a semester. It is a ratio of total credit points secured by a student in various courses registered in a semester and the total course credits taken during that semester. It shall be expressed up to two decimal places.

Semester: Each semester will consist of 15-18 weeks of academic work equivalent to 90 actual teaching days. The odd semester may be scheduled from July to December and even semester from January to June.

Time Allocation-
Six days per week and 20 weeks per semester (excluding Examination)

Each period is of 45 minutes and the classroom engagement is spread across 10.00 am to 4.00 pm with a break 1 hour for lunch.

Evaluation Subject:-
The system of evaluation will be as follows: Each assignment/test will be evaluated in terms of grades. The grades for separate assignments and the final (semester-end) examination will be added together and then converted into a grade and later a grade point average. Results will be declared for each semester and the final examination will give total grades and grade point average. The 10-point grading system will be followed as under:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Grade Point</th>
</tr>
</thead>
<tbody>
<tr>
<td>O (Outstanding)</td>
<td>10</td>
</tr>
<tr>
<td>A+(Excellent)</td>
<td>9</td>
</tr>
<tr>
<td>A (Very Good)</td>
<td>8</td>
</tr>
</tbody>
</table>
A student obtaining Grade F shall be considered failed and will be required to reappear in the examination and the grade P is minimum percentage of marks required to pass the course.

**Examination pattern:**
Assessment will include both internal and external. Internal assessment will be conducted on the basis of assignments, project reports, dairies, maintenance of student attendance register/ other registers and students’ portfolios. The summative assessment will be conducted in the following manner.

- There shall be a university examination at the end of each semester as per details of the scheme of examination.
- The minimum pass marks in each year or semester examination shall be 51% for each theory paper (including Internal and External) and practicum and 51% for internship in teaching separately. Candidate will have to pass each theory paper separately.
- A candidate who fails in maximum two courses in first year or semester of the course will be eligible to take the examination in that part of the subject (theory paper/practicum) as the case may be, in which he/she fails along with the next semester.
- A candidate who fails in maximum two courses in second year of the course will be allowed to appear as an ex-student in that part of the subject in which he/she fails at the subsequent examination. In case a candidate fails internship in teaching, he/she will have to undergo the full year of the course of study as a regular student in the subsequent year.
A candidate will be given a maximum of two chances to pass the examination in any year/semester of the course. If he/she does not pass the examination even after two chances he/she will not be eligible for B. Ed. degree.

Teaching Subjects means a subject offered by a candidate at his Bachelor’s or Master’s Degree examination either as a compulsory subject or as an optional subject.

The evaluation of the internship programme for (Semester –II & III) and other Assignments in different semesters (Semester I to IV) of the B. Ed. Students will be evaluated by the Board of examiners comprising of the following persons:-

(A)- IN SEMESTER I, II, & IV- (Board of examiners)

01- External Examiners - within the University (H.N.B.G.U.) Campuses and Affiliating Government Colleges

01- Internal Examiner - Head/Representative of the same institution.

**School Internship:**

It is an integral component of B. Ed. Course. For each student-teacher, internship should be conducted preferably in one/two school; **Two Weeks in II- Semester for and the entire 16+ 2 weeks (Total 18 Weeks) in Semester-III.** However, if the institute wants to provide an opportunity to understand the context of teaching in a government and private school or the dynamics of teaching at elementary and senior secondary levels. Internship may be arranged in two blocks in such a way that teaching in one school at a particular level (for example elementary or senior secondary) is followed by the teaching in another school or the same school at another level. Under any circumstances, the student-teacher should not be sent to more than two schools during her/his internship period. Internship should not be reduced to the ‘delivery’ of a certain number of lesson plans, but should aim for meaningful and holistic engagement with learners and the school.

During the Internship, a student-teacher shall work as a regular teacher and participate in all the school activities, including planning, teaching and assessment, interacting with school teachers, community members and children. Before teaching in a classroom, the student-teachers will observe the school and its classrooms for a week, to understand the school in totality, its philosophy and aims, organisation and management; the life of a teacher; needs of the physical, mental, emotional development of children; aspects of curriculum and its transaction; quality, transaction and assessment of teaching–learning.

Student-teachers are to be actively engaged in teaching at two levels, namely, upper primary and secondary. They should be provided opportunities to teach in government and private schools with systematic supervisory support and feedback from faculty. Internship in schools is to be done for a minimum duration of 16 weeks. This should include an initial phase of one week for observing a regular classroom with a regular teacher and would also
include peer observations, teacher observations and observations of interns’ lessons by faculty. It is important that the student-teachers consolidate and reflect on their teaching experience during and after the school internship.
