

GMAT Syllabus

GMAT exam includes 4 sections. GMAT Exam Syllabus for all the sections is given below, candidates who are going to write this exam they may check syllabus properly:

- Analytical Writing Assessment (AWA)
- Integrated Reasoning (IR)
- Quant
- Verbal

Analytical Writing Assessment (AWA):

The first section of the GMAT is Analytical Writing Assessment. Candidates are required to complete in 30 minutes. This is an essay section where the candidates have to write an analysis of the presented argument. This section has no set topics.

This section covers:-

- writing skills and abilities
- Clarity and logic in your argument
- Overall importance of your essay with respect to the given topic

Integrated Reasoning (IR):

Candidates will get 30 minutes complete Integrated Reasoning section. This section was included in GMAT in June 2012. This measure the candidate's ability to check information given in multiple formats from multiple sources – the skills needed to do well in a technologically advanced, data-driven world.

The IR section includes 12 questions of four types:

- Multi source reasoning
- Graphics interpretation
- Table analysis
- Two-part analysis

Quant:

This section checks your fundamental mathematical skills and your caliber to reason quantitatively. Candidates need to solve 37 quant questions in 75 minutes and questions are based on:

- Problem solving (PS): Questions given, for which you have to calculate the answer.
- Data Sufficiency (DS): You need to understand whether the given data is sufficient to solve a particular question.

Quant section includes various topics:

Arithmetic	Algebra	Geometry
<ul style="list-style-type: none">• Number Systems and Number Theory• Multiples and factors• Fractions• Decimals• Percentages• Averages• Powers and roots• Profit and Loss• Simple and Compound Interest• Speed, Time, and Distance• Pipes, Cisterns, and Work Time• Ratio and Proportion• Mixtures and Alligations• Descriptive statistics• Sets• Probability	<ul style="list-style-type: none">• Permutation and Combination• Monomials, polynomials• Algebraic expressions and equations• Functions• Exponents• Arithmetic and Geometric Progression• Quadratic Equations• Inequalities and Basic statistics	<ul style="list-style-type: none">• Lines and angles• Triangles• Quadrilaterals• Circles• Rectangular solids and Cylinders• Coordinate geometry

Verbal:

This is the last section of GMAT. Candidates need to solve 41 verbal questions in 75 minutes. Through this section candidates are evaluated on Reading and understanding the written material, Reasoning and appraising the arguments and Rectifying the written material in accordance with standard written English.

This section includes various topics:

- Reading Comprehension (RC): under this applicants need to give answer related to the given passage.
- Critical Reasoning (CR): You need to find the premise, conclusion, assumption, etc in short passage.
- Sentence Correction (SC): A part of the sentence is underlined, and five options are provided. You need to spot the error, and mark the right option.

GMAT Exam Pattern

<u>GMAT Test Section</u>	<u>Number of Questions</u>	<u>Question Types</u>	<u>Timing</u>
Analytical Writing Assessment	1 Topic	Analysis of Argument	30 Minutes
Integrated Reasoning	12 Questions	Multi-Source Reasoning Graphics Interpretation Two-Two Part Analysis Table Analysis	30 Minutes
Quantitative	37 Questions	Data Sufficiency Problem Solving	75 Minutes
Verbal	41 Questions	Reading Comprehension Critical Reasoning Sentence Correction	75 Minutes
