

Amazon Interview Process - Bhopal

Amazon conducted an off campus drive at SAKET NAGAR near AIIMS Bhopal.

There are total 4 rounds:

1. Attendance in college.
2. Aptitude
3. Technical.
4. HR.
5. Picture based essay writing

I am Chandu. In this semester I got 8.2 SGPA :P and my friend got 8.56 named Ashu. We both placed on Amazon but not going to this because we are not going to job in LODU company.

If you clear the aptitude, you have won "lawda mera" 80% of the battle. Aptitude is really very tough and needs practice. Aptitude consists of 7 sections including verbal and non-verbal reasoning, quantitative, logical, comprehension, articles, synonyms and antonyms.

Mostly problems with profit and loss, average, simple interest, compound interest, problems on ages are asked.

Preparation from IndiaBix or R.S Aggarwal is enough. ""Shivani"" will also work.

The results are declared as soon as you finish the test on your computer screen. If you are through it shows congratulations and if you are not it shows thank you, try next time. Guys, it's very tough so prepare well, from my batch I was the only one to clear the aptitude.

If you clear aptitude, other rounds are cakewalk for you.

Next round starts as soon as you finish the first. Now you have to write an essay based on the picture shown in which a man is doing with 3 girls ohh yeahhh so I have written all about DAN BILZERIAN

Just focus on your thoughts and make sure about tenses and sentence formation mostly and even punctuation. The results are announced after 30-40 mins.

Next is the technical round. I'm an EC student, So they asked questions about my stream and projects. Guys prepare your projects well and also whatever you have written on your resume. They will ask you everything that's written in the resume. For CS/IT, students prepare your programming well.

HR round is just like a formality, they ask about yourself and about relocation and working in shifts. They said, everyone, that we will receive an email concerning the results. It will be the offer letter, someone from their team said. Only 30-35 candidates went through to HR and I'm happy that I'm one of them. Eagerly waiting for my offer letter.

ALL THE BEST FOR ALL OF YOU!!! Tech Mahindra conducted an off campus drive at Wadia College.
