Read the following passage and answer (Qns 16- 19)

At a stage like this in human civilisation, it is of utmost interest that nations' coarse ignorance towards one another decreases, people should start understanding a bit of histories of other cultures, other countries and the resulting mentality developed. It is really fault of Englishmen because they expected people to run the world as they wanted to, to international as well as political situations. We many a times expect people to be the way we are and because of that nothing is made out of our actual kindness and good intents. This could be corrected, not to be a very wide extent but to a certain limit if we knew global history, even outlines of it, about the conditions, social and political, which have lead the country to shape up as it has currently.

16. Author wants the people of his country to:

- a. Read other nation's policies

- a. 308%
- b. 32%
- c. 2150%
- d. 215%

8. Find the largest number which gives out reminders 2 and 5 when used to divide 80 and 122.

- a. 19
- b. 17
- c. 13
- d. infinite number of solutions

9. Find the ratio of the volumes of a sphere and cone of same radius. Also the height of the cone is twice its radius.

- a. 3 : 1
- b. 4 : 3
- c. 4 : 1
- d. 2 : 1

10. Find the missing number in the sequence 504 , \_ , 990, 1320, 1716

- a. 720
- b. 1000
- c. 721
- d. 790

11. The perimeter of a square and a rectangle is the same. If the rectangle is 12 cms. by 10 cms., then by what percentage is the area of the square more than that of the rectangle?

- a) 1
- b) 3
- c) 5/6
- d) 1/2

12. Capacity of a cylindrical vessel is 25,872 litres. If the height of the cylinder is 200% more than the radius of its base, what is the area of the base in square cms?

- a) 336
- b) 1232
- c) 616

d) cannot be determined

13. If the radius of a circle is increased by 12%, then the area of the circle

- a) decreases by 25.44%
- b) increases by 25.44%
- c) no change in area
- d) decreases by 12%

14. Aravamudhan, Balakrishnan and Chinnan work in a developing software company in starting level positions. However their salaries are different. Aravamudhan's salary to Balakrishnan's salary and Balakrishnan's salary to Chinnan's salary are in the ratio 4:3. If the total salary of all the three employees is Rs.29230, what is the salary of Chinnan?

- a) Rs.12640
- b) Rs.9480
- c) Rs.7110
- d) Rs.8660

15. Three cricket players -- Ramesh, Suresh and Ganesh play for three different cricket Teams – Haryana, Delhi and Rajasthan respectively. Ramesh was born in Chennai but brought up in Karnal,Haryana. Suresh was born in Delhi and brought up in Delhi. Ganesh's fore-fathers were from Madurai but settled in Rajasthan. All the three participated in a cricket tournament. Ramesh's runs to Suresh's runs and Suresh's runs to Ganesh's runs are in the ratio 5:7. If the total runs scored by all the three players in the tournament is 327, find the total runs scored by Suresh in the tournament?

- a) 95
- b) 85
- c) 65
- d) 105
